**Ghost Division:**  
Erwin Rommel & German Mobile Warfare in 1940  
The German campaign in the west in May and June 1940 proved to be one of the most stunning victories in history, ending with the surrender of France, Belgium and the Netherlands after only a few weeks. Behind that victory was the new concept of mobile warfare, and in the lead within it were the panzer divisions.

**Rommel on Russia:**  
His 1943 Solution for the Eastern Front  
In late July 1943, after a meeting with Hitler, Field Marshal Erwin Rommel sat with Lt. Gen. Fritz Bayerlein and discussed the military situation. In light of Rommel's tremendous experience fighting a mobile war with a smaller force against quantitatively superior opponents better equipped and supplied, it's worth pondering whether he'd arrived at a winning solution for the eastern front.

**The Singapore Raid**  
By 15 February 1942 the amazed and defeated British defenders in Singapore had surrendered and were en route to miserable and infamous captivity for the rest of the war. As it was, though, the most determined and formidable among them had escaped and were already plotting a victorious return.

**The Rise & Fall of Tankettes, 1925-40**  
The interwar period was a time of uncertainty for armed forces faced with integrating the new technologies introduced during the Great War. Within the realm of ground warfare, the greatest question centered around the potentials of armored fighting vehicles. One of the most influential concepts was that of the "tankette."

Tobruk uses the same system as Sedan: The Decisive Battle for France, May 1940. Tobruk is a simulation of British Eighth Army's Operation Crusader, the attempt to relieve the Tobruk garrison during the period from November to early December 1941, with each turn representing two days.
